**Aircraft Noise (Dublin Airport) Regulation Act 2019 Section 19 Compliance – Noise Programme of Works**

Dear Ethna,

Further to our correspondence of 19<sup>th</sup> November please find enclosed our Noise Programme of Works.

We trust that this programme of works sets out and demonstrates how Dublin Airport will meet the provision of compliance data related to noise mitigation measures at the airport. Furthermore, we have identified the sequence of works both currently underway and planned to ensure the effective deployment of a Community Engagement Tool over the course of the next few months.

Dublin Airports approach to effectively implementing additional Noise Monitoring Terminals to ensure the reasonable assessment of current and future operations is also set out.

As previously outlined, regular meetings have been scheduled within the programme of works to review progress and agree planned implementation dates.

Any initial comments or review of the tasks and dates outlined in the programme are welcomed and will be incorporated wherever possible.

Yours sincerely,

*Ian Clarke*
