## Vessel: Ros Áine

Date: 10/02/2023

Issue No: 01

## Notice to Mariners

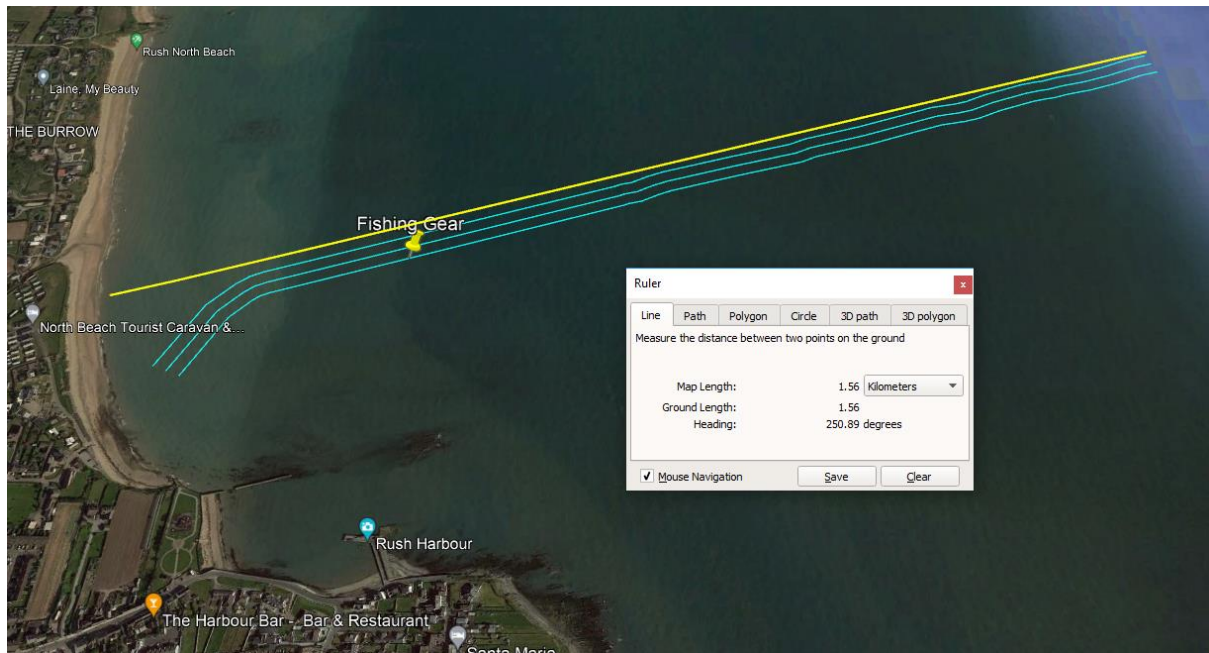

### Hydrographic Survey Operations

Please be advised that SEP Hydrographic Limited. will be carrying out hydrographic survey operations in the following area:

Irish Sea, Rush.

Survey Operations are anticipated to commence on 16/02/2023 weather permitting. The expected duration is **1** days. Survey operations will be undertaken using survey vessel **Ros Áine**.

### Overview of Survey Area

## Ros Áine Details

Ros Áine (LOA 12m, beam 4m and draft 0.8m) is a shallow drafted catamaran. The vessel colour is blue. The vessel will operate on a 6hr basis working out of Malahide Marina and will display appropriate day shapes & lights during survey operations.

The vessel will actively transmit an AIS signal, while working in the area.

Survey operations will involve pole mounted and towed survey equipment, with the vessel running survey lines east to west and west to east over the area highlighted in blue in the image above. Survey speed will generally be around 4-5 knots.
